Subject: FW: Portland Harbor Pre-RD Group Bathymetry Survey

Hi Davis and Sean.

Lance forwarded this message from NW Natural's consultant (Ryan Barth at Anchor QEA) asking for more details on when the Pre-RD Group will complete their updated bathy survey.

As we discussed earlier today, it's probably best for lines of communication to be through Davis on all things Pre-RD Group related.

I've prepared a rough message below to Ryan for your use Davis. Feel free to use/modify as needed. I wasn't sure if you want to refer Ryan to Ken Tyrell (see yellow highlight):

Ryan.

Our contractor has provide this email to me as I'm the lead contact for EPA on the work, including bathymetry surveying, that the Pre-RD Group is performing under an ASAO.

EPA recognizes the value this new Bathymetric information will bring to your efforts at NW Natural and all of the existing and future performing parties in Portland Harbor.

We are aware that the Pre-RD Group has initiated their surveying, but the timing of when they will have the survey data completed for release to the public is currently unknown at this time. Feel free to contact Ken Tyrell (ken.tyrrell@aecom.com) for more detailed information. (DAVIS – DO YOU WANT TO REFER THEM TO KEN TYRELL?) If not, please delete.

Davis Zhen

Subject: Portland Harbor Pre-RD Group Bathymetry Survey

As time permits, please let me know if the Pre-RD Group has completed an updated bathymetry survey throughout Portland Harbor and when the data will be released to the public. That data will support our forthcoming comprehensive data gaps sampling and analysis planning. Thanks in advance for the support.
